

MediTrac® use with MRI applications

August 27, 2021

MediTrac® Corrugated Medical Tubing (CMT) and associated components are manufactured from the following non-magnetic material:

Tubing

- Corrugated Tubing: ASTM B103, copper alloy UNS No. C51000
- Tubing Jacketing: Low Density Polyethylene

Fittings:

- Brass Copper Alloy CA 360
- Stainless Steel 300 Series

Due to the MediTrac® systems construction it is acceptable for use in and around Magnetic Resonance Imaging (MRI) equipment.

For additional question please contact MediTrac technical support at 1800-355-1039.

Thank You,

David R. Edler
MediTrac Business Unit Manager
